

## MONASH UNIVERSITY & UNIVERSITY COLLEGE LONDON 2021 PERIOPERATIVE MEDICINE SHORT COURSE

DEPARTMENT OF ANAESTHESIOLOGY AND PERIOPERATIVE MEDICINE  
UCL CENTRE FOR PERIOPERATIVE MEDICINE

### Why you should participate

Perioperative medicine is an emerging field of medicine that has developed in response to the increasing age and complexity of patients and in the number of surgical procedures being performed.

The course has been developed as a collaboration between Perioperative Medicine experts at both Monash University and University College London and aims to provide a comprehensive overview of topics considered important in the field.

### Course structure

Six-week online course including:

- Reading packages
- Journal articles
- Short videos
- PeriopMed Podcast (Monash)
- TopMed talks Podcast (UCL)
- Multiple choice questions in each module

### Target audience

Anaesthetists, Intensivists, Physicians, Surgeons, Pain Specialists, Emergency Physicians, General Practitioners, Nurses, Specialist Nurses and Allied Health Therapists and any professionals interested in perioperative care.

### Topics

- Introduction to Perioperative Medicine
- Clinical Risk Assessment
- Perioperative Medication Management
- Managing Early Postoperative Challenges
- Designing Clinical Pathways
- Ethics and Advanced Care Directives

\*Topics may be subject to change
